

# Mineral Insulated Immersion Probe

Made in the UK 

## Description

Hand held mineral insulated immersion probe ideal for use in high temperature liquid or steam environments.

This versatile hand held thermocouple is designed for measuring temperatures in a variety of applications. The type K mineral insulated stainless steel probe can be used to measure temperatures up to 800°C and is supplied in 3mm or a rigid 6mm diameter. The construction allows it to be bent or shaped for hard to reach applications. It includes a plastic handle, 1 metre coiled cable and mini plug for use with hand held digital indicators.

## Features

- Rated to 800 °C
- Suitable for liquids or semi solids
- Probe can be bent to shape

## Application

- For use in a variety of applications including semi solids, liquids and gases
- Ideal for temperature measurement in small openings

## Specification

Product	Mineral Insulated Immersion Probe
Type	K
Temp Range	0 - 800°C
Probe Length	100, 150, 200, 250, 300 & 500mm
Sheath	Stainless Steel
Accuracy	Class 1
Probe Dia	3 or 6mm
Handle Length	100mm
Lead Length	300mm (expands to 1 metre)
Termination	Mini Plug
Part Number	HIIMIK
