

Heavy Duty T-Bar Penetration Probe

Made in the UK 

Description

Hand held, heavy duty T-bar penetration probe for use with solid or semi-solid products.

This rigid stemmed hand held type K thermocouple with pointed tip is designed for penetration into solid and semi-solid substances with a measurement range of -75 to 200°C. It is made from 316 Stainless Steel and has a ¼" diameter stem with a number of standard probe lengths available. The ergonomic handle design allows forceful penetration of solid materials and is supplied with 1 metre coiled cable and mini plug for use with hand held indicators.

Specification

Product	Heavy Duty T-Bar Penetration Probe
Type	K
Temp Range	-75 to 200°C
Probe Length	100, 150 & 200mm standard or to order
Sheath	Stainless Steel
Accuracy	Class 1
Probe Dia	6mm
Handle Size	11mm x 150mm
Lead Length	300mm (expands to 1 metre)
Termination	Mini Plug
Part Number	HNPHD

Features

- Pointed penetration tip
- Rugged heavy duty design for hard to penetrate substances
- Rated to 200°C

Application

- Food and Beverage
- Soil and Aggregates
- Used with the Sterling Sensors Digital Thermometer
