

Heavy Duty Crocodile Clip

Made in the UK 

Description

Type K heavy duty crocodile clip thermocouple for surface measurement of pipes or structures.

This hand held temperature sensor is ideal where a robust connection is required, giving good thermal contact with the surface to be measured. The heavy duty Jaws open 40mm to give a quick and easy connection to the surface thermocouple mounted in the jaws.

This sensor is for use with any hand held thermometer or multimeter that supports K thermocouple input

Specification

Product	Heavy Duty Crocodile Clip Surface Thermocouple
Type	K
Temp Range	-50 to 150°C
Connection	Mini plug
Accuracy	Class 1
Lead length	1m curly lead
Jaw Opening	40mm
Part Number	HSICC

Features

- 40mm jaw opening
- Plastic grip handles
- 1 metre coiled lead
- Mini plug connection

Application

- Pipes
- HVAC
- Flow and return radiator balancing
