

Rubber Patch Thermocouple

Made in the UK 

Description

Thermocouple with self-adhesive, silicone rubber patch and moulded silicone patch cover.

These easy to install surface mount thermocouples are available in types K or J. The self-adhesive silicone rubber patch encloses the thermocouple junction and makes it resistant to many oils and chemicals. The silicone rubber sensor has dimensions of 15mm x 30mm and is suitable for use between -50°C and +150°C, making it ideal for fixing to ducts or pipes.

These thermocouples are supplied with a 2 or 5 metre PFA flat pair 7/0.2mm lead as standard complete with 50mm stripped wires. Although they can be made to order with longer lead lengths and optional mini or standard plugs fitted.

Specification

Product	Rubber Patch Thermocouple
Type	K or J
Temp Range	-50 to 150°C
Patch size	15mm x 30mm
Patch Cover	40mm x 40mm
Lead length	2m or 5m standard or made to order
Lead wire	7/0.2mm PFA flat twin
Accuracy	Class 1
Termination	50mm stripped wires or plug
Part Number	TSRUB

Features

- Silicone rubber with self-adhesive backing
- Thermocouple Type K and J
- -50°C to +150°C Operating Range
- Resistant to chemical and oils

Application

- Heating and Ventilation (HVAC)
- Surface Measurement
- Temperature Mapping
