

Surface Mount Rubber Patch Thermocouple

Made in the UK 

Description

A stick on self-adhesive surface mount silicon rubber patch type K thermocouple type with flexible lead.

This range of silicone rubber patch thermocouples are ideal for surface temperature measurement of flat surfaces or curved pipes.

These sensors have foil backing for faster response time and are provided in type K thermocouple as standard, we can custom manufacture with many other sensor options, such as type J or T thermocouple.

The sensors are supplied with PFA insulated 7/0.2mm flat twin IEC coloured thermocouple wire complete with 50mm stripped tails. Also, they can be made to order with longer lead lengths or a connector to suit your application.

Specification

Product	Self Adhesive Backing Thermocouple
Type	Type K
Temp Range	-30 to +150C
Patch Size	16 x 37 mm, 16 x 50 mm (curved)
Lead length	1m to 5m or made to order
Lead wire	7/0.2 PFA/PFA flat twin
Accuracy	Class 1
Termination	50mm stripped wires
Part Number	TSSAB

Features

- Type K Class 1 accuracy
- Self-Adhesive foil backing for faster response
- Flexible silicone rubber patch
- Temperature range -30 to +150°C

Application

- Heating and ventilation ducts
- Pipes or curved surfaces
- Surface measurement
